

Egyptian Operator Primed for Growth

TSXV : **TAO** | OTCQX : **TAOIF**

September 2022

FORWARD-LOOKING STATEMENTS AND DISCLAIMER

TAG Oil Ltd. ("TAG", "TAG Oil" or the "Company") has adopted the standard of six thousand cubic feet of gas to equal one barrel of oil when converting natural gas to "boe," which may be misleading, particularly if used in isolation. A boe conversion ratio of 6Mcf: 1 bbl is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead.

Statements contained in this document that are not historical facts are forward-looking statements that involve various risks and uncertainty affecting the business of TAG Oil. Such statements can generally, but not always, be identified by words such as "expects", "plans", "anticipates", "intends", "estimates", "forecasts", "schedules", "prepares", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. All statements that describe the Company's plans relating to operations and potential strategic opportunities are forward-looking statements under applicable securities laws. These statements address future events and conditions and are reliant on assumptions made by the Company's management, and so involve inherent risks and uncertainties, as disclosed in the Company's periodic filings with Canadian securities regulators. As a result of these risks and uncertainties, and the assumptions underlying the forward-looking information, actual results could differ from those currently projected, and there is no representation by TAG Oil that the actual results realized in the future will be the same in whole or in part as those presented herein. The Company does not assume the obligation to update any forward-looking statement, except as required by applicable law.

Unless otherwise noted, the oil in place volumes in this document are an estimate by non-independent TAG Oil professionals who are qualified reserves evaluators in accordance with NI 51-101 and COGE Handbook, with an effective date of September 30, 2021 . The volume estimates provided in this document are estimates only and not an indication of resources or recovered volumes, and there is no certainty that any portion of the oil in place volumes will be commercially viable to produce.

Exploration for hydrocarbons is a speculative venture necessarily involving substantial risk. The Company's future success in exploiting and increasing its current reserve base will depend on its ability to develop its current properties and on its ability to discover and acquire properties or prospects that are capable of commercial production. However, there is no assurance that the Company's future exploration and development efforts will result in the discovery or development of additional commercial accumulations of oil and natural gas.

Crude Oil and Natural Gas Liquids		Natural Gas	
bbl	barrel(s)	Mcf	thousand cubic feet
bopd	barrels per day	MMcf	million cubic feet
Mbbl	thousand barrels	Mcf/d	thousand cubic feet per day
MMbbl	million barrels	MMcf/d	million cubic feet per day
boe	barrel of oil equivalent	Bcf	billion cubic feet
boepd	barrel or barrels of oil equivalent per day	NGL	natural gas liquids
MMboe	million barrel of oil equivalent		

- **Canadian Energy Company Listed on TSX-V: TAO.V**
- **Officers:**
 - Abby Badwi – Executive Chairman
 - Toby Pierce – CEO and Director
 - Suneel Gupta – COO
 - Gamal Rezk – General Manager Egypt
- **Directors:**
 - Thomas Hickey – Head of Corporate Legal for Roquette Frères
 - Keith Hill – CEO of Africa Oil
 - Shawn Reynolds – Portfolio Manager at Van Eck Securities
 - Gavin Wilson – Investment Manager for Meridian Group
- **Strategy:**
 - Focus on sourcing oil and gas opportunities in Egypt and the Middle East

- Working Capital
 - C\$13.3 million in cash with no debt
 - C\$15.4 million in working capital
 - ~C\$0.15 / share in cash
 - G&A substantially covered by royalty and interest payments
- Capital Structure⁽¹⁾
 - 91.8 million shares o/s; 105.5 million fully diluted
- Royalty Revenue
 - 2.5% on gross revenue from the sale of the New Zealand assets
 - Current production ~1100 boepd
 - Applies to all current and future production in New Zealand

- Egypt
 - Award of agreement to develop Abu Roash “F” (ARF) formation in the Badr Oil Field (BED-1), a 107 km² (26,000 acres) concession located in the Western Desert, Egypt announced on September 20, 2022⁽²⁾
 - ARF data indicates potentially significant volumes of oil in place in BED-1⁽³⁾
- New Zealand
 - Up to US\$4.5 million in milestone payments
 - Estimated payout over two to four years
- Australia
 - Three blocks sold in 2020 for a cash payment of A\$2,500,000
 - TAG Oil to receive a 3.0% gross overriding royalty on future gas production

(1) As at YE/22 (March 31, 2022)

(2) Subject to the Petroleum Services Agreement with EGPC (Badr Petroleum Company) becoming effective

(3) Internal estimate provided by non-independent TAG Oil professionals

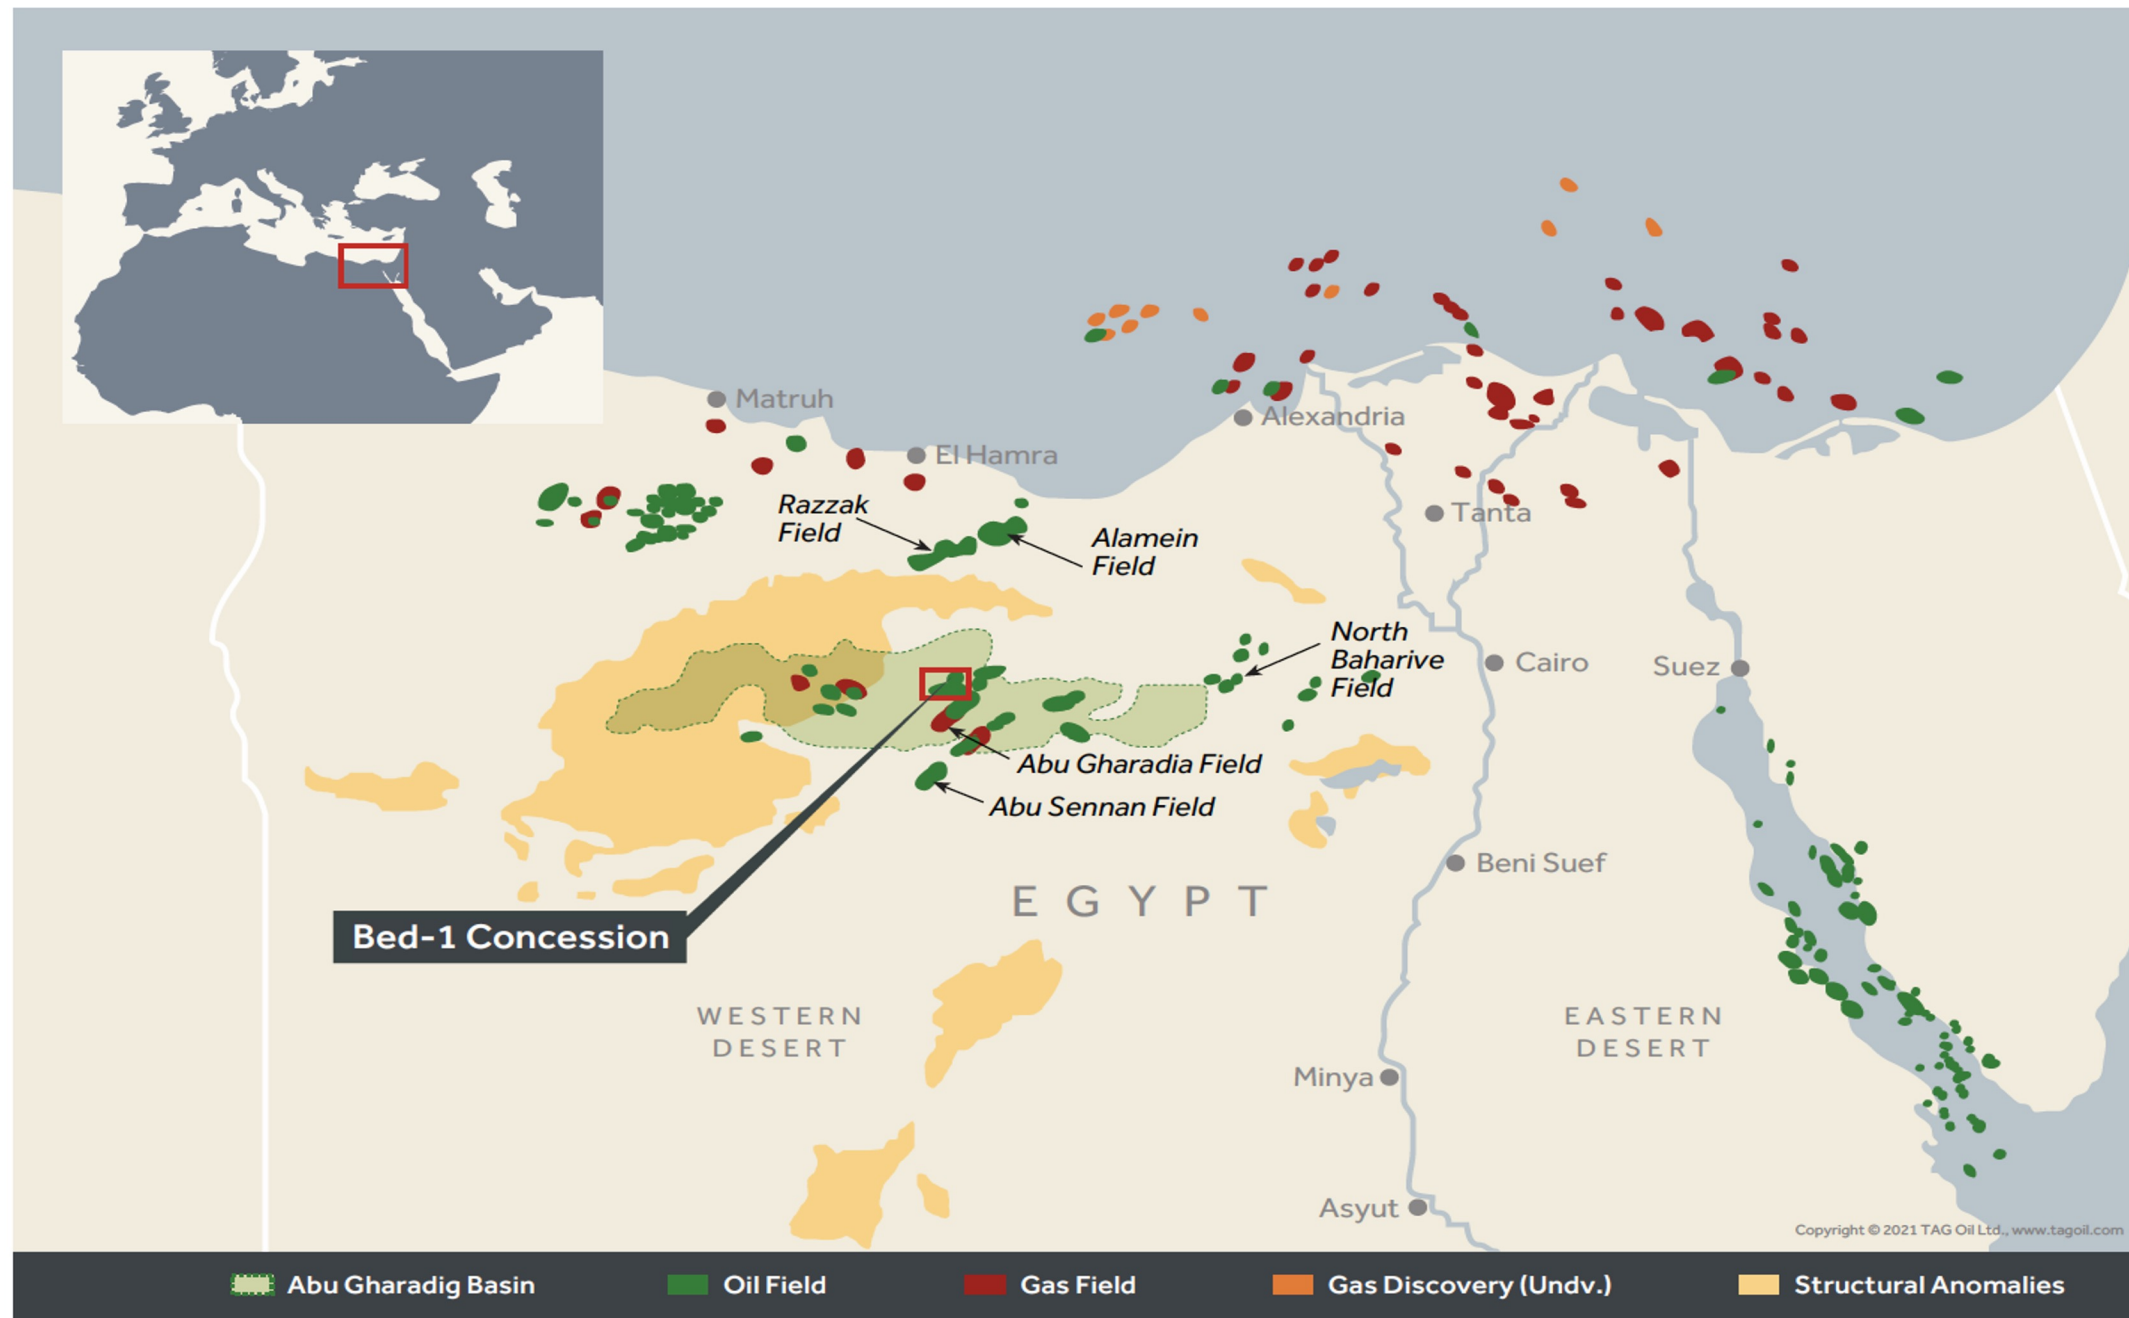

STRATEGY AND VISION

- Driven by strong supply / demand fundamentals, oil prices have increased sharply post pandemic
- Focus on sourcing E&P acquisitions of international opportunities in the Middle East / North Africa (MENA) Region
- Acquisition to be funded primarily out of existing cash, reserves base lending and production off-take credit facilities and equity issuance if necessary
- Utilize the leadership team expertise to target assets with significant upside potential by applying horizontal drilling techniques and enhanced secondary and tertiary recovery methods and access to capital to execute on strategic vision
- Strive to increase cash flow by continuous efforts to lower operating costs and general and administrative expenses
- Growth to continue by further development of acquired assets and corporate consolidation opportunities

- Egypt is a democratic republic, its geography, population and history, have made it a highly influential country in the region
- Is the largest Arab country and has played a central role in Middle Eastern politics in modern times
- It has the largest and most diversified economies in the Middle East
- Oil and gas, mining, agriculture, the Suez Canal, tourism and textile industry are the major contributors to Egypt's economy
- Egypt produces approximately 700,000 bopd and is a net exporter of natural gas
- Recently signed a tri-lateral agreement with Israel and the EU to be a major gas and LNG export hub to Europe

- Concession term until 2032 with a 10-year extension
- Badr Petroleum Company to pay the Company a service fee as a percentage of gross Production Revenue Entitlement to compensate the Company for assuming 100% of the capital and operating expenditures and to include a share of profit oil
- **Signature Bonus US\$3.0 million**
- This resource play can be developed through proven technologies of long-reach horizontal wells, hydraulic fracture stimulation and potentially other Enhanced Oil Recovery production methodologies successfully implemented by TAG's management team's previous operating expertise
- Three Phase Development:
 - **Phase 1:** Evaluation Period, which is considered as a pilot development stage
 - **Phase 2 and 3:** Commercial Production stages that will be commenced once the pilot stage is successful

BED 1-7
Thick 40 meters
ARF Formation

- TAG has been and continues to evaluate new acquisitions and joint venture opportunities in Egypt and the Arabian Gulf area, specifically Bahrain and Oman in order to expand and find the right fit for the Company's portfolio

WHY TAG OIL?

- Experienced exploration, development and operations team
- Strategic holdings in stable, secure country with very good fiscal terms
- Targeting long life production with potential resources upside
- 100% working interest and operatorship
- Pursuing other opportunities in Egypt and the MENA Region
- Strong balance sheet and no debt
